# What does it mean to be part of Bay House?

## The GFM Way

Our language for the behaviours we each hold ourselves and each other to.

# How do we support pupils in building the essential skills to succeed?

## Gosport Futures

Our language across the GFM for the skills we develop through all learning opportunities

**GF**  
GOSPORT FUTURE

The core skills that all Gosport and Fareham learners embody, develop and secure

All GFM pupils are developing the essential skills to succeed

### Listening

The receiving, retaining and processing of information or ideas

This skill is all about being able to effectively receive information - whether it comes from a peer, a teacher or someone else entirely. Initially, the skill steps concentrate on being able to listen effectively to others.

### Speaking

The oral transmission of information or ideas

This skill is all about how to communicate effectively with others, being mindful of whether they are talking to peers, teachers or others in different settings.

### Problem Solving

The ability to find a solution to a situation or challenge

This skill focuses on how to solve problems, recognising that while part of Problem Solving is technical know-how and experience, there are also transferable tools that individuals can develop and use.

### Staying Positive

The ability to use tactics and strategies to overcome setbacks and achieve goals

This skill is all about individuals being equipped to manage their emotions effectively and being able to remain motivated, and ultimately to motivate others, even when facing setbacks.

### Leadership

Supporting, encouraging and developing others to achieve a shared goal

At the earliest stages, the focus is on basic empathy - understanding their own feelings, being able to share them, and recognising the feelings of others. The focus is on managing - dividing up tasks, managing time and sharing resources, managing group discussions and dealing with disagreements.

### Creativity

The use of imagination and the generation of new ideas

Creativity is the complement to Problem Solving, and is about generating innovations or ideas which can then be honed through the problem-solving process.

### Aiming High

The ability to set clear, tangible goals and devise a robust route to achieving them

This skill is about being able to plan effectively - both to achieve organisational goals, and also to set their own personal development targets. Initially, this is about knowing when something is too difficult, and having a sense of what doing well looks like for an individual.

### Teamwork

Working cooperatively with others towards achieving a shared goal

This skill applies to working with both formal and informal teams, and also with peers, teachers and others. Initially, this is about individuals fulfilling expectations around being positive, behaving appropriately, being timely and reliable and taking responsibility. This extends to understanding and respecting diversity of others' cultures, beliefs and backgrounds.

# Where do I go if there is a problem?

## The Role of the Tutor

*“A great form tutor will build a positive relationship with each and every member of the tutor group. They will use tutor time to reinforce the school ethos and to inspire and encourage pupils. The tutor will encourage an environment of mutual respect as well as showing personal attention to every individual as often as possible. The form tutor is a vital link between pupil, school and parents/carers.*

*When people look back on their school experience, the first person they often think of is their form tutor.”*
