

Data Protection Policy - Secondary Phase Exams Addendum

Approved by:	GFM Board	Date:	22 January 2024
Maintained by:	L Mulhall	Next review due:	January 2026

Key staff involved in the policy

Role	Name(s)
Head of centre	BH: Mr Chris Willis / BP: Kerry Payne
Exams officer	BH: T Piddington and A Marlowe / BP: Ms Lynda Lister
Senior leader(s) - DPO	Mr L Mulhall
IT manager and Data Manager	Mr D Willis

Secondary Phase Schools

- Bay House School and Sixth Form, PO12 2QP Centre 58129
- Brune Park School, PO12 3BU Centre 58133

Purpose of the policy

This policy details how GFM Schools, in relation to exams management and administration, ensures compliance with the regulations as set out by the Data Protection Act 2018 (DPA 2018) and General Data Protection Regulation (GDPR).

At the date of reviewing these regulations, although the UK has left the European Union the General Data Protection Regulation still has a direct effect within the UK (JCQ's [General Regulations for Approved Centres](#) (GR, section 6.1) Personal data)

Students are given the right to find out what information the centre holds about them, how this is protected, how this can be accessed and how data breaches are dealt with.

All exams office staff responsible for collecting and sharing candidates' data are required to follow strict rules called 'data protection principles' ensuring the information is:

- used fairly and lawfully
- used for limited, specifically stated purposes
- used in a way that is adequate, relevant and not excessive
- accurate
- kept for no longer than is absolutely necessary
- handled according to people's data protection rights
- kept safe and secure
- not transferred outside the European Economic Area without adequate protection

To ensure that the centre meets the requirements of the DPA 2018 and GDPR, all candidates' exam information – even that which is not classified as personal or sensitive – is covered under this policy.

Section 1 – Exams-related information

There is a requirement for the exams office(r) to hold exams-related information on candidates taking external examinations. For further details on the type of information held please refer to *Section 5 – Candidate information, audit and protection measures*.

Candidates' exams-related data may be shared with the following organisations:

Awarding bodies

- Joint Council for Qualifications (JCQ)
- AQA; Pearson Edexcel; OCR; WJEC; CIE; RSL; NCFE; 1st4Sport; Admissions Testing Service

This data may be shared via one or more of the following methods:

- hard copy
- email
- secure extranet site(s) – eAQA; OCR Interchange; Pearson Edexcel Online; WJEC Secure Website; CIE Secure Site; NCFE Secure Site, RSL Secure Site; 1st4Sport Secure Site; Admissions Testing Service Secure Site.
- Management Information System (MIS) provided by Capita SIMS /Arbor sending/receiving information via electronic data interchange (EDI) using A2C (<https://www.jcq.org.uk/about-a2c>) to/from awarding body processing systems; etc.]

This data may relate to exam entries, access arrangements, the conduct of exams and non-examination assessments, special consideration requests and exam results/post-results/certificate information.

Section 2 – Informing candidates of the information held

GFM Schools ensure that candidates are fully aware of the information and data held.

All candidates are given access to this policy via centre website or on verbal request.

To be greater and to aspire further

At this point, the centre also brings to the attention of candidates the annually updated JCQ document Information for candidates – Privacy Notice which explains how the JCQ awarding bodies process their personal data in accordance with the DPA 2018 and GDPR.

Candidates eligible for access arrangements are also required to provide their consent by signing the GDPR compliant JCQ candidate personal data consent form (Personal data consent, Privacy Notice (AAO) and Data Protection confirmation) before access arrangements approval applications can be processed online.

Section 3 – Hardware and software

The table below confirms how IT hardware, software and access to online systems is protected in line with DPA & GDPR requirements.

- Desktop computers with encrypted hard drives
- Laptop computers with encrypted hard drives

Software - all software is only accessible by approved members of staff. Passwords are set to strong and changed throughout the year.

- EES SIMS
- Arbor MIS
- Microsoft Office
- Google Docs

Section 4 – Dealing with data breaches

Although data is handled in line with DPA/GDPR regulations, a data breach may occur for any of the following reasons:

- loss or theft of data or equipment on which data is stored
- inappropriate access controls allowing unauthorised use
- equipment failure
- human error
- unforeseen circumstances such as a fire or flood
- hacking attack
- 'blagging' offences where information is obtained by deceiving the organisation who holds it

If a data protection breach is identified, the following steps will be taken:

Containment and recovery

The GFM DPO will lead on investigating the breach.

It will be established:

- who needs to be made aware of the breach and inform them of what they are expected to do to assist in the containment exercise. This may include isolating or closing a compromised section of the network, finding a lost piece of equipment and/or changing the access codes
- whether there is anything that can be done to recover any losses and limit the damage the breach can cause. As well as the physical recovery of equipment, this could involve the use of back-up hardware to restore lost or damaged data or ensuring that staff recognise when someone tries to use stolen data to access accounts
- which authorities, if relevant, need to be informed

Assessment of ongoing risk

The following points will be considered in assessing the ongoing risk of the data breach:

- what type of data is involved?
- how sensitive is it?
- if data has been lost or stolen, are there any protections in place such as encryption?
- what has happened to the data? If data has been stolen, it could be used for purposes which are harmful to the individuals to whom the data relates; if it has been damaged, this poses a different type and level of risk
- regardless of what has happened to the data, what could the data tell a third party about the individual?
- how many individuals' personal data are affected by the breach?
- who are the individuals whose data has been breached?
- what harm can come to those individuals?
- are there wider consequences to consider such as a loss of public confidence in an important service we provide?

Notification of breach

Notification will take place to enable individuals who may have been affected to take steps to protect themselves or to allow the appropriate regulatory bodies to perform their functions, provide advice and deal with complaints.

Evaluation and response

Once a data breach has been resolved, a full investigation of the incident will take place. This will include:

- reviewing what data is held and where and how it is stored

To be greater and to aspire further

- identifying where risks and weak points in security measures lie (for example, use of portable storage devices or access to public networks)
- reviewing methods of data sharing and transmission
- increasing staff awareness of data security and filling gaps through training or tailored advice
- reviewing contingency plans

Section 5 – Candidate information, audit and protection measures

For the purposes of this policy, all candidates' exam-related information – even that not considered personal or sensitive under the DPA/GDPR – will be handled in line with DPA/GDPR guidelines.

Section 6 – Data retention periods

Details of retention periods, the actions taken at the end of the retention period and method of disposal are contained in the [GFM Data Retention Schedule](#).

Section 7 – Access to information

<https://ico.org.uk/your-data-matters/schools/exam-results>

The GDPR gives individuals the right to see information held about them. This means individuals can request information about them and their exam results, including:

- their mark
- comments written by the examiner
- minutes of any examination appeals panels

This does not however give individuals the right to copies of their answers to exam questions.

Requesting exam information

Requests for exam information can be made to the school in writing with ID required to prove identity.

The GDPR does not specify an age when a child can request their exam results or request that they aren't published. When a child makes a request, those responsible for responding should take into account whether:

- the child wants their parent (or someone with parental responsibility for them) to be involved; and

To be greater and to aspire further

- the child properly understands what is involved.

As a general guide, a child of 12 or older is expected to be mature enough to understand the request they are making. A child may, of course, be mature enough at an earlier age or may lack sufficient maturity until a later age, and so requests should be considered on a case by case basis.

A decision will be made by head of centre as to whether the student is mature enough to understand the request they are making, with requests considered on a case by case basis.

Third-party access

Permission should be obtained before requesting personal information on another individual from a third-party organisation.

Candidates' personal data will not be shared with a third party unless a request is accompanied with permission from the candidate and appropriate evidence (where relevant), to verify the ID of both parties, provided.

In the case of looked-after children or those in care, agreements may already be in place for information to be shared with the relevant authorities (for example, the Local Authority). The centre's Data Protection Officer will confirm the status of these agreements and approve/reject any requests.

Sharing information with parents

The centre will take into account any other legislation and guidance regarding sharing information with parents (including non-resident parents), as example guidance from the Department for Education (DfE) regarding parental responsibility and school reports on pupil performance:

- Understanding and dealing with issues relating to parental responsibility www.gov.uk/government/publications/dealing-with-issues-relating-to-parental-responsibility/understanding-and-dealing-with-issues-relating-to-parental-responsibility
- School reports on pupil performance www.gov.uk/guidance/school-reports-on-pupil-performance-guide-for-headteachers

Publishing exam results

GFM Schools will publish exam results to the media or within the centre in line with the following principles:

- Refer to guidelines as published by the Joint Council for Qualifications
- Act fairly when publishing results, and where people have concerns about their or their child's information being published, taking those concerns seriously
- Ensure that all candidates and their parents/carers are aware as early as possible whether examinations results will be made public and how this will be done
- Explain how the information will be published. For example, if results will be listed alphabetically, or in grade order

As GFM School will have a legitimate reason for publishing examination results, consent is not required from students or their parents or guardians for publication. However, if a student or their parents or guardians have a specific concern about publication of their results, they have the right to object. This objection must be made in writing to the head teacher, who will consider the objection before making a decision to publish and reply with a good reason to reject the objection to publish the exam results.
