

EARN, LEARN & INSPIRE

the next generation of scientists,
mathematicians and computer Scientists

Postgraduate Teaching Apprenticeship in chemistry, physics, maths or computing

Join King's Academy Bay House, a thriving Sixth Form with a strong reputation in STEM education, as you train to become a qualified teacher through the University of Buckingham's Postgraduate Teaching Apprenticeship.

This is your opportunity to begin a rewarding teaching career in science, maths or computing, earning while you learn in a supportive, forward-thinking school.

Why Choose This Route?

- Earn while you train – Get paid as an unqualified teacher while working towards QTS.
- No tuition fees – Fully funded through the Apprenticeship Levy
- Train on the job – Gain hands-on experience at Bay House while completing 20% off-the-job training, including online learning and school-based mentoring
- Fast-track QTS – Achieve Qualified Teacher Status in under a year

Why King's Academy Bay House?

Located in Hampshire, King's Academy Bay House offers a vibrant academic environment where STEM subjects thrive:

- Science, maths and computing delivered by expert teachers
- Practical labs, rigorous curriculum, and excellent student outcomes
- Strong emphasis on professional development and mentorship

Entry Requirements

- UK Bachelor's degree (or recognised equivalent)
- GCSE Grade C/4 or above in English and Maths
- Employed (or offered a position) as an unqualified teacher
- Passion for education, strong subject knowledge, and a commitment classroom impact
- Employment is subject to being accepted onto the apprenticeship

Shape the future of science, maths and computing education – start your teaching journey at King's Academy Bay House.
